2024 BRING YOUR OWN DEVICES INFORMATION LETTER

Dear Parents and Caregivers,

The purpose of this letter is to provide information about the Quakers Hill High School Bring Your Own Device (BYOD) program. 2022 saw the culmination of our gradual rollout of BYOD with all year groups (7-12) bringing a notebook computer to support all aspects of their learning. The requirement for all students to have access to their own device will continue into 2024.

We believe that the move to BYOD has supported both students and staff in a variety of ways, including the ability to:

- work and learn collaboratively
- develop creative and critical thinking
- engage in flexible learning activities
- develop digital citizenship
- capture a range of modes, including text, audio and video.

Quakers Hill High School has invested heavily in technology over the past eight years, and we will continue to invest time and funds into ongoing staff/student learning in order to support the success of ongoing BYOD implementation. Furthermore, the school has partnered with 'Learning with Technology' to organise discounts on a range of suitable devices. For more information, please visit <https://qhhs.orderportal.com.au/>.

In seeking to support parents, as we move to embrace BYOD, a range of 'frequently asked questions' accompanies this letter. If you have any additional questions, please contact quakershil-h.school@det.nsw.edu.au. Thank you for your support as we seek to further develop the learning and teaching opportunities for our students and staff.

Yours sincerely,

Jason White
Principal
